PROJECTS ACCOMPLISHED

RentEase - Apartment Rental Management App

- As a full stack developer, built a responsive Ionic Angular app with Firebase for real-time database, authentication, and cloud storage. Implemented property listings, tenant/landlord dashboards, booking management, and automated notifications for seamless cross-device experience.

QOPHIKO - Coffee Website using PHP and MySQL

- Developed QOPHIKO, a dynamic coffee shop website, as a Back-End Developer. The website was built using PHP and MySQL, featuring product listings, order management, and an intuitive interface designed to enhance user experience.

SumoRobot : Using C++ and Arduino Uno

- This robot is a requirement also for Application Development and Emerging Technologies subject which I used my knowledge in Arduino Uno and C++ to create it. It has enemy detection and evasion feature.
